As Chairman of the Board I want to remind everyone that if there is any disruption of any kind at this or any District meeting you will be asked to leave the property and you will be charged for criminal trespass.

Superintendent's Report

[10 MIN

- Rainbow Water District is offering Text Alerts (Text My Gov)

- The issue with meter reading at 91250 Blue River Rd. has been accessed.
  I and Orren Lehr replaced the old meter that had been unreadable in October 2025 with a new Neptune meter and it read 1,000.00 gallons for 7 months and in April of 2026 the box was full of water and unreadable.
  I should have pumped the water out to read the meter however I thought it had been vacuumed out by the contractor and they created a leak. My mistake! The next month I was hospitalized and could not read the meters. In June 2026 the plumber that works for Brinks found the leak on the customers side of the meter and in the plumbers, opinion was caused by the customers builder and fixed it for free of charge and installed the new Kamstrup meter. If the box had been pumped out earlier, I would have seen the meter spinning making the customer responsible for the water usage. Due to my negligence of not pumping out the box I recommend that the water district forgo half of the amount due for that leak. $154.00 The customers part would be $77.00 I have spoken with the husband of the customer and he agreed that was fare.

- I am still gathering bids for painting and fencing.

Items for Commissioners

- The Water District does not have a policy for leak forgiveness.
- The Board needs to discuss data down load policy for the new Kamstrup meters.
- I have spoken to legal council about representing the Water District.

Officers Reports
[10MIN]

- Treasurer's Report
