---

**Superintendent’s Report**

[10 MIN]

Several main breaks last month. One causing loss of pressure in the main, prompting a boil notice for six homes and water samples had to be taken to the lab for testing. First sample was positive for Coliform that prompted a second water sample that came back negative. At that point the boil notice was lifted. There are three meters that need to be replaced. I ordered six more and have received them. I am trying to include the cost of the six new meters and Neptune data logger (belt clip meter reader) and cost of Laydown yard to the grant for the new water system.

Lane County Drinking Water Program in conjunction with Oregon Health Authority conducted a sanitary survey of the Blue River Water District on 07/01/2025 there is one rule violations however for not having a certified DRC. This is being addressed. The Water District has until 11/17/2025 to rectify this issue. No other Rule Violations or Deficiencies were called out in the survey. A copy of this survey is available at the OHA Drinking Water Services Data Online website.

**Items from Commissioners**

**Officers Reports**

[10MIN]
